

Alternative Transit Service Study

With ridership increasing over the past three years, the Town of Morrisville is studying options for enhancing and/or expanding its transit services. The aim is to identify the best solutions to meet the community's growing needs.

We need your input on the following draft recommendations to shape the future of Morrisville's transportation network, ensuring it is resilient and meets the needs of the community today and tomorrow.

PLANNING AHEAD: A Smart Idea for Morrisville

The following table shows the results of screened transit options that best meet the needs of the community, today and in the future.

Fall 2025:
Development of Final
Recommendations

Service Type	Service Purpose	Applicability to Town Character	Considered for Implementation	Core Objectives: • Enhanced Connectivity for Residents • Improved Transit Reliability • Increased Sustainable Transit Options Factors in Town Character: • Affordability • Frequency • Reliability • Punctuality • Convenience • Supportive Land Use
High Frequency Routes (Fixed-Route, High Frequency)	Offers regular service throughout the day in areas where there are lots of people.	Low	✗	
Local Routes (Fixed-Route)	Offers local connections to neighborhoods, places where people work, leisure and recreation, and public transportation stations connecting multiple routes.	Medium	✓	
Microtransit (Morrisville Smart Shuttle or Similar Service)	Offers on-demand transportation to help people reach jobs, shopping areas, healthcare services, and public transit stations whenever they need it.	High	✓	
Deviated Fixed-Route (Hybrid Fixed-Route)	Offers a fixed-route with a set of scheduled stops. However, upon request the bus can deviate within a certain area to pick up or drop off passengers.	Low	✗	
Intercounty Connectors (Commuter Routes)	Offers long-distance bus services that operate quietly and efficiently, stopping at convenient locations like park-and-ride lots, transfer hubs, and job centers.	Low	✗
