- ☐ Temporary Pole
- ☐ Solar Panel

Permit Number: _____

Address: _____

Suite/Lot #: _____ Subdivision: _____

Contractor Signature: _____

Electrical Contractor Signature: _____

Mechanical Contractor Signature: _____

Plumbing Contractor Signature: _____

Please note:

Temporary electrical connection will be issued to assist contractors in completing the construction by providing electrical power to operate heating and air conditioning equipment for the purpose of maintaining and controlling environmental air to permit the proper installation of floor and wall covering.

In order for this structure to qualify for conditional power, the following conditions must be met:

1. The structure must be under roof and permanent exterior walls must be in place.
2. Service equipment must be installed and inspected.
3. Personnel must be alerted concerning the presence of energized electrical and heating systems.
4. Heating and Air Conditioning unit must be inspected and approved.

Signatures of approval from electrical, mechanical and plumbing contractors to energize specific portions of their systems (see above).

CONDITIONS FOR MAINTAINING CONDITIONAL POWER ARE AS FOLLOWS:

1. Conditional power is granted for a period sixty days.
2. Conditional power is intended for operation of environmental systems. No connections for branch circuits or any other service for temporary use is permitted unless approved by the Electrical Inspector.
3. The structure shall not be occupied until all final inspections have been approved, all fees paid and certificate of occupancy has been issued.
4. Conditional power is to be in the name of the Responsible Agent.
5. Energized systems to be maintained in a safe and secure manner.

PORTIONS OF ELECTRICAL SYSTEM TO BE ENERGIZED

Specifically state the portions of the electrical system for which this application is made and its' intended use and duration.

Having affixed my signature to this document, I agree to these conditions and qualifications under which it is issued. I further agree that failure to comply with this procedure will result in the disconnection of power and future conditional power privileges for the owner and/or contractor.
